AUTHOR	Winch, Cheryl; And Others
TITLE	Placement Survey Report: North Hennepin Community College 1994-1995 Graduates.
INSTITUTION	North Hennepin Community Coll., Minneapolis, MN. Office of Research and Planning.
PUB DATE	Jul 96
NOTE	191p.
PUB TYPE	Statistical Data (110) -- Reports - Research/Technical (143) -- Tests/Evaluation Instruments (160)
EDRS PRICE	MF01/PC08 Plus Postage.
DESCRIPTORS	*Associate Degrees; *College Graduates; College Transfer Students; Community Colleges; *Educational Certificates; Graduate Surveys; *Job Placement; *Outcomes of Education; *Student Characteristics; Two Year Colleges; Vocational Followup
IDENTIFIERS	North Hennepin Community College MN

ABSTRACT

Comprised primarily of data tables, this report presents findings from a survey conducted by Minnesota's North Hennepin Community College (NHCC) to determine outcomes for the 779 graduates from 1994-95. Following an introduction describing the study methodology and indicating that 672 graduates returned completed surveys, the first section presents overall findings for the graduates, including degrees awarded by type (i.e., Associate in Arts (AA), Associate in Science (AS), Associate in Applied Science (AAS), and certificates) and gender; numbers and percentages of graduates transferring and attaining employment; and graduate status by program. The next section focuses on AA graduates, presenting tables on the numbers of transfers to area colleges for students in arts and humanities, professions, science and mathematics, social science, and unknown or undecided majors. This section also presents data on the number of employed AA graduates by employer and job title. The third section focuses on AAS graduates, presenting employment status of graduates from the accounting, administrative management, architectural drafting, automotive, building inspection, business management, electronics, fire protection, fluid power, graphic design, manufacturing management, mechanical drafting and design, medical records, and radiologic programs. The fourth section presents employment outcomes for AS graduates from the law enforcement, legal assistant, medical laboratory, noninvasive cardiology, nursing, pre-business administration, and pre-engineering programs. The final section presents outcomes for graduates receiving certificates in the administrative assistant and building inspection programs. The survey instrument and a cover letter are appended. INTRODUCTION

INTRODUCTION

SURVEY PROCEDURE

During Fall quarter the NHCC Research and Planning office mails the Placement Survey forms (cover letter and questionnaire; see the Appendix) to the previous fiscal year's graduates. Those who do not respond to the initial mailing are sent a second questionnaire. We then try to contact by phone any non-respondents to the second mailing. Finally, we use a purchased commercial skip-tracing service to try to track any graduates with incorrect mailing addresses. Following several such attempted contacts, we tally any remaining non-respondents as such in the Placement Survey Report.

That procedure has resulted in very high return rates on the placement survey, as shown by the tally to the right.

We end our mail and phone contact attempts in the Winter quarter. We then prepare a data-base composed of the responses from the returned questionnaires and telephone contacts. Those data entries are severed from the graduate's names in order to ensure confidentiality. We than sort, tally, and compile the responses into the Placement Survey Report.

PLACEMENT SURVEY RETURNS

FISCAL YEAR	NUMBER OF GRADUATES	NUMBER OF RESPONDENTS	PERCENT RETURN RATE
77-78	486	415	85%
78-79	454	418	92%
79-80	487	425	87%

INTRODUCTION (continued)

REPORT FORMAT

AA Graduates

As shown in the Table of Contents, this report presents Placement Survey data for each degree type (Associate in Arts, Associate in Applied Science, Associate in Science, and Certificate) and, within those categories, for each major or program for which degrees were awarded.

We sort and tally Associate in Arts respondents into five transfer categories (by stated major), a non-transfer group, and one non-respondent category. Those categories, with the majors which are subsumed under them, are:

A. Arts and Humanities Transfer Majors

Art	Liberal Arts	Religion
English	Music	Speech
Languages	Philosophy	Theater

B. Professions Transfer Majors

Accounting	Education	Law
Architecture	Engineering	Library
Business	Graphic Design	Management
Communications	Journalism	Medicine
		Social Work

INTRODUCTION (continued)

C. Science and Math Transfer Majors

Astronomy	Computer Science	Mathematics
Biology	Forestry	Physics
Chemistry	Geology	

D. Social Science Transfer Majors

Anthropology	History	Psychology
Economics	Political Science	Sociology

E. Unknown/Undecided Transfer Majors

F. Non-Transfers

We tally those Associate in Arts respondents once only, and present placement data for them according to this process:

A. First, those in school, according to their transfer major.

B. Next, those working and not in school.

C. Finally, those who are neither in school nor working.

INTRODUCTION (continued)

AAS, AS, & Certificate Graduates

The method for tallying Associate in Applied Science, Associate in Science, and Certificate respondents follows the requirements of the HECB Occupational Graduate Follow-up procedures:

A. First, those continuing their education who indicated (1) they were admitted to a program, (2) were enrolled for six or more credits, and (3) education was more important than employment, if employed.

B. Of the remainder: those ineligible for placement if they were unemployed and not seeking employment.

C. Of the remainder: those working 30 hours a week or more for four or more weeks were classified as full-time employment. Those working less than 30 hours per week for less than four weeks were classified as part-time/short-term. Those who said their employment was Strongly Related or Related to their education were classified as related employment. Those who indicated their employment as slightly related or not related to their education, or did nor indicate the relationship between employment and education, were classified as unrelated.

D. The remainder: those neither working nor attending school.

To ensure respondent's privacy, we report average wages only.

nb: Percentages in this report are rounded to the nearest whole number, hence may not total to 100%.

INTRODUCTION (continued)

FIGURES

This report contains charts of selected information from the Placement Survey. The figures on the following pages show (1) the percentages of degree types for all the graduates, (2) the sex distribution for all the graduates, and (3) the transfer schools of the AA graduates.

Those charts are based on 672 responses received from 779 graduates on the 94-95 Placement Survey (86% response rate). The responses include those from 370 of the 434 AA graduates (85% response rate), 103 of the 119 AAS graduates (87% response rate), 175 of the 210 AS graduates (83% response rate), and 14 of the 17 CERT graduates (82% response rate).

1994-1995 PLACEMENT STATISTICS

779	TOTAL GRADUATES	
	434	AA Graduates
	119	AAS Graduates
	210	AS Graduates
	16	CERT Graduates
672	RESPONDENTS	
	370	AA Graduate Respondents
	103	AAS Graduate Respondents
	175	AS Graduate Respondents
	14	CERT Graduate Respondents
10	REFUSED TO RESPOND TO SURVEY	
2	UNABLE TO LOCATE GRADUATE	
105	NON-RESPONDENTS	
	53	local, mailed twice, & called three times
	8	long distance, mailed twice, & called twice
	58	mailed twice, but bad phone numbers
86%	RESPONSE RATE	

CHARTS

ALL GRADUATES: DEGREE TYPES

This figure shows the percentages of degree types among all the 94-95 graduates. Slightly more than half of the graduates received Associate in Arts degrees, while over a quarter received Associate in Science degrees.

Compared to the 93-94 graduates, there was a one percent increase in Associate in Arts degree, along with a one percent increase in Certificates awarded. Associate in Science degrees decreased by four percent, while the AAS degrees remained constant.

Table 1 (page 7) shows detailed information on the number of degrees by degree type and specialty including the sex differences for each degree and specialty.

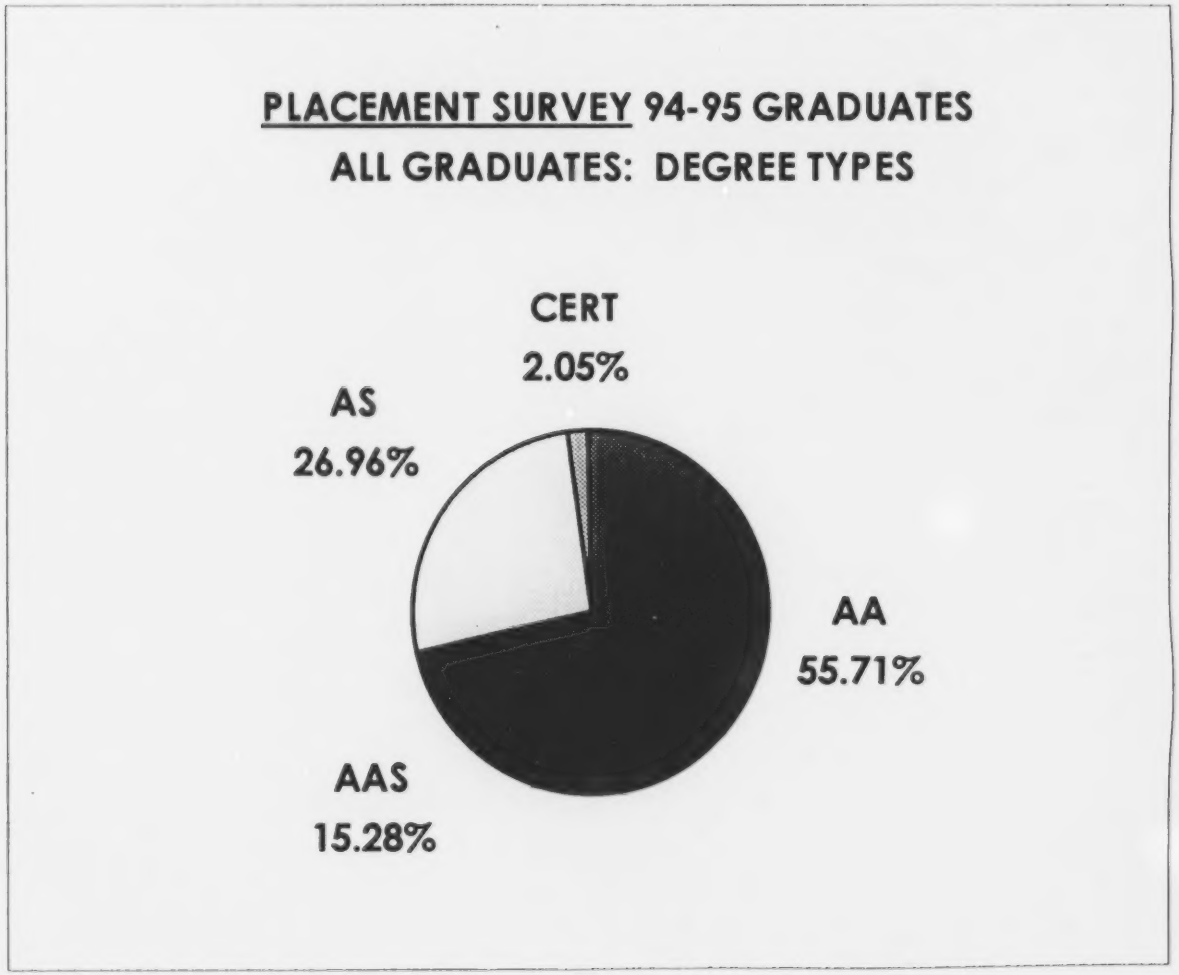

TABLE 1: DISTRIBUTION OF DEGREES AWARDED BY SEX

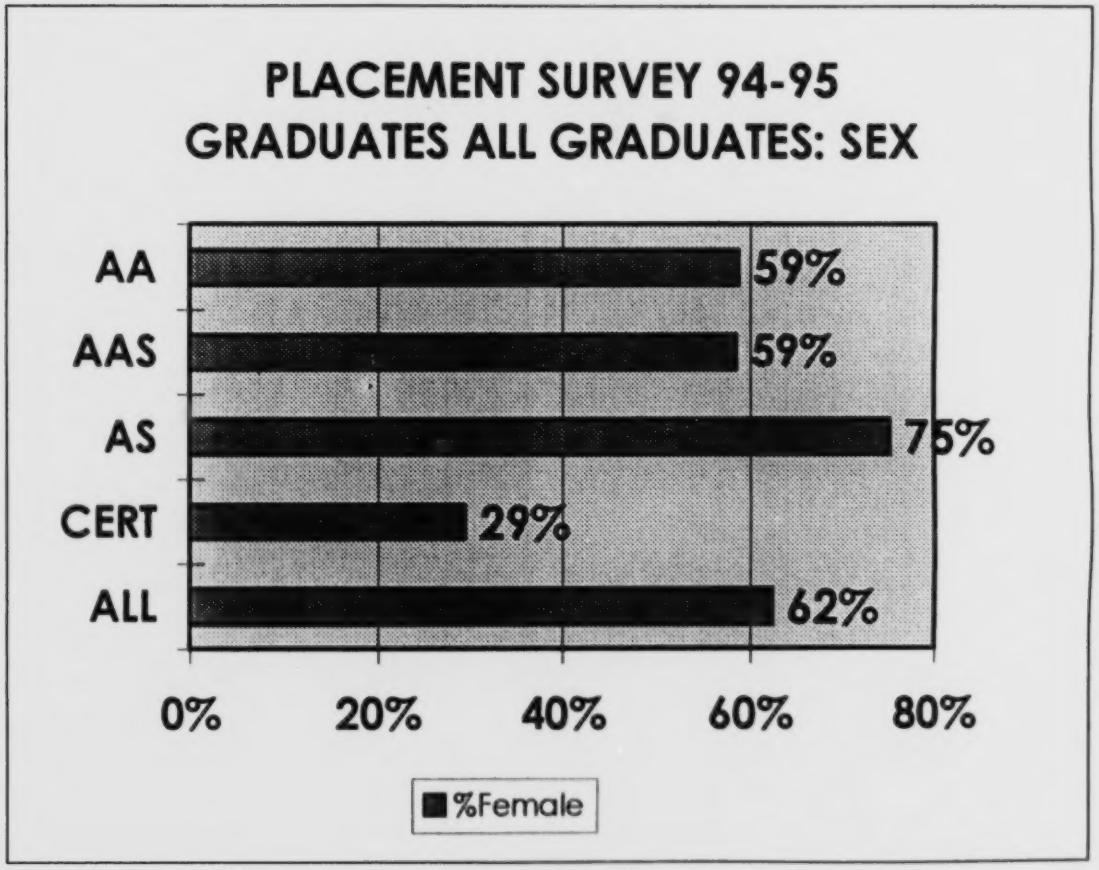
ALL GRADUATES: SEX

This figure shows the sex distribution for the 94-95 graduates including differences by degree type. Overall, 62% of the graduates were female. 59% of the AA graduates were female. Female graduates in the Associate in Applied Science programs increased by eight percent over last year: only slightly more than half were female in 93-94. Female Associate in Science graduates increased 1% in 94-95, while 29% of the 17 Certificate graduates were female. Table 1 (page 7) shows detailed information by program for sex differences.

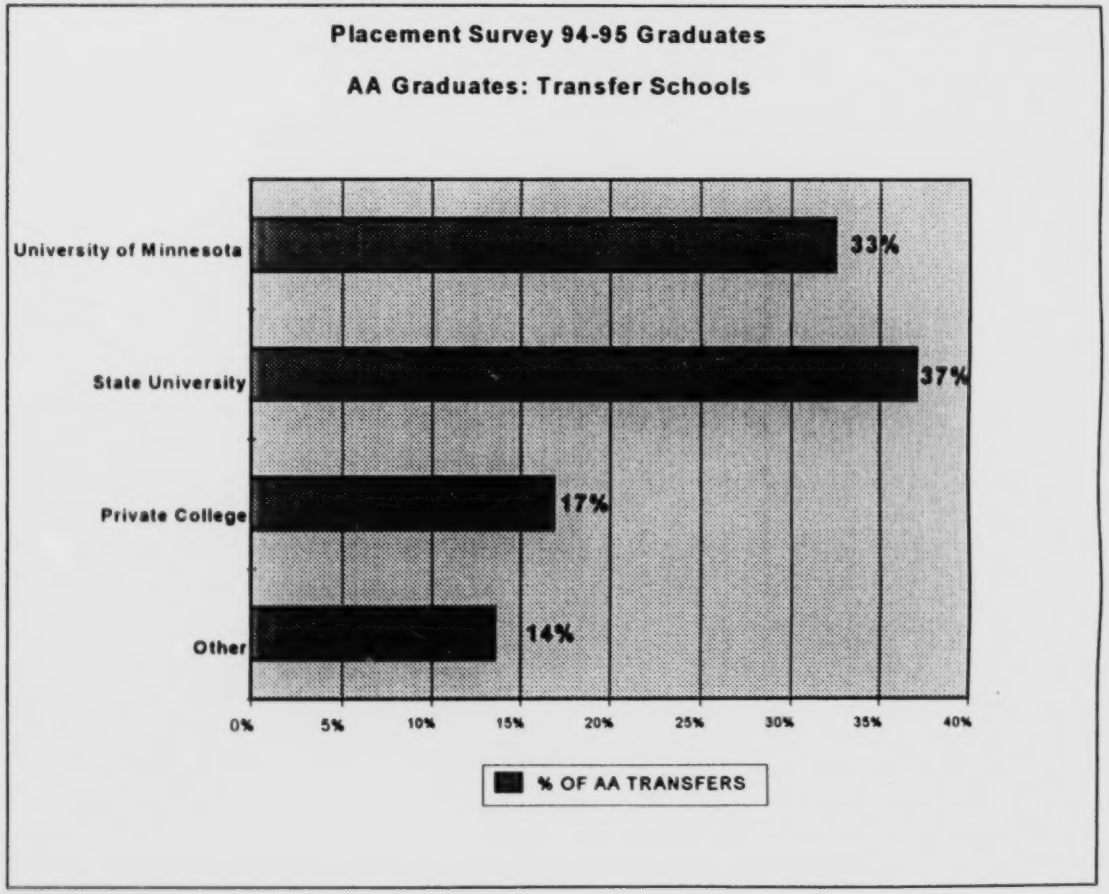


AA GRADUATES: TRANSFER SCHOOLS

Fewer of the total 94-95 AA graduates transferred (66%) than did in 93-94 (69%).

This figure shows Minnesota State Universities continued to be the primary transfer destination, followed by the University of Minnesota, Private Colleges in Minnesota, and other two and four-year colleges.

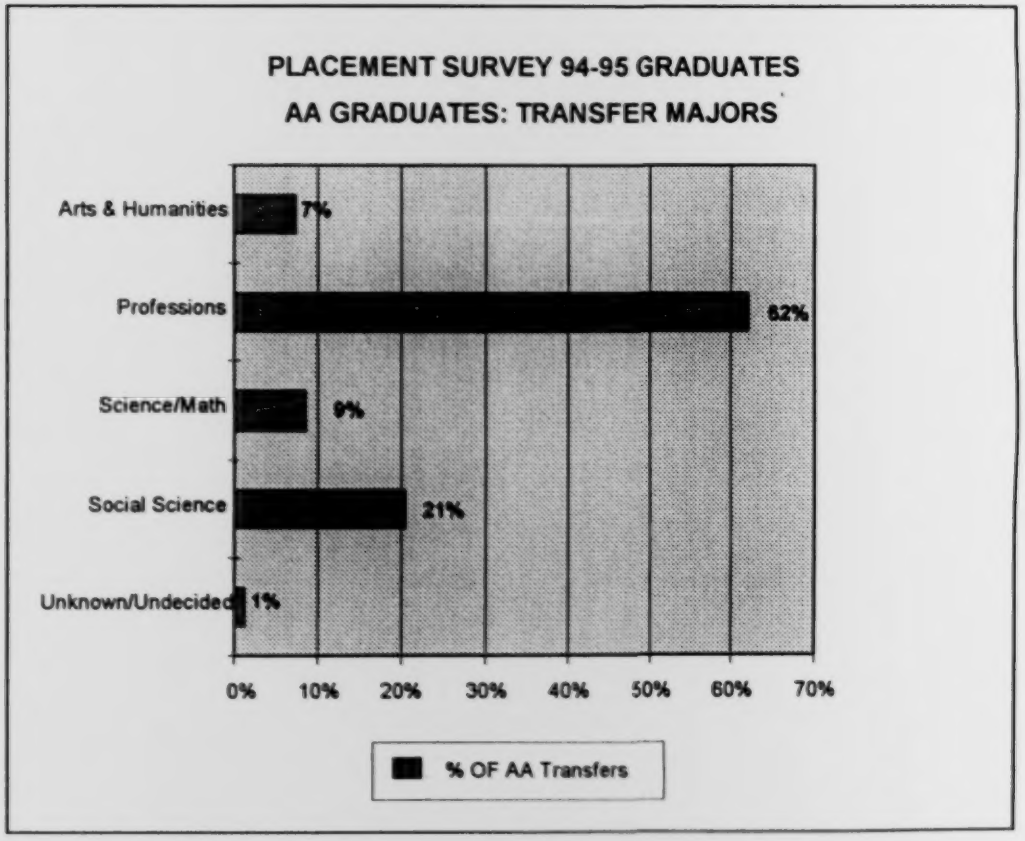
Compared to 93-94 AA graduates, current AA graduates were more likely to choose the University of Minnesota, slightly more likely to choose private or other colleges, and less likely to choose Minnesota State Universities.



AA GRADUATES: TRANSFER MAJORS

This figure shows the transfer majors of the 94-95 graduates. More than half of the AA transfers were majoring in the professions; over twenty percent in Social Science; and less than ten percent in the Arts & Humanities and Science & Math areas.

Compared to the 93-94 graduates, current graduates were more likely to major in Liberal Arts subjects: Social Science (21% vs. 13%), Science & Math (9% vs. 7%), and the Arts & Humanities (7% vs. 4%), and less likely to major in the Professions (62% vs.70%).



BEST COPY AVAILABLE

AAS AND AS GRADUATES: PLACEMENT

This figure shows the placement outcomes for graduates from the two occupational degree programs. AAS graduates were more likely to be employed full-time in related jobs (54% vs. 46%) and in part-time unrelated jobs (2% vs. 1%). AS graduates were more likely to be in Full-time unrelated (11% vs. 9%) and part-time related jobs (15% vs. 3%). Seventy eight percent of the AAS degrees were employed, while ninety-one percent of the AS graduates were employed.

GRADUATE STATUS BY PROGRAM

NORTH HENNEPIN COMMUNITY COLLEGE 1994-95 GRADUATES

Program Name: Accounting Technology - AAS

1. 28 students graduated from this program during the 1994-1995 school year.
2. 75.0%, or 21 of the 28 graduates were in the labor force.
3. 0.0%, or 0 of the 28 graduates were not in the labor force.
4. 10.7%, or 3 of the 28 graduates were continuing education.
5. 14.3%, or 4 of the 28 graduates' status is unknown.

Of the 21 graduates in the Labor Force:

1. 85.7%, or 18 were employed in a full-time related job, with an average wage of $11.17 per hour.
2. 0.0%, or 0 were employed in a related part-time/short-term job.
3. 85.7%, or 18 were employed in related jobs.
4. 9.5%, or 2 were employed in a full-time unrelated job.
5. 4.8%, or 1 was employed in a unrelated part-time/short-term job.
6. 0.0%, or 0 of the graduates in the labor force were unemployed.

1. Full-time employment is defined as at least 30 hours per week for at least four weeks.
2. Part-time/short-term employment is defined as less than 30 hours per week or fewer than four weeks.
3. Related employment indicates the student reported the job as related or somewhat related to their education.
4. Unrelated employment indicates the student reported the job as not related to their education.
5. a. A list of graduate job titles is available for review upon request.
   b. These data were gathered and reported in conformance with statewide standards under the auspices of the Minnesota Higher Education Coordinating Board and are subject to audit.
   c. These employment follow-up data reflect the past experiences of graduates from specific programs/majors. The data do not predict future employment trends or imply an individual's probability of obtaining employment.
6. Not in labor force includes deceased, incarcerated, medical condition, and not seeking employment.
7. Confidence in the data diminishes when the number of graduates whose status is unknown is greater than 15 percent.
8. Relationship of employment to instructional program as reported by graduates.
9. Average salaries are not reported unless at least three people in the group gave wage data.

APPENDIX

PLACEMENT SURVEY COVER LETTER

NORTH HENNEPIN COMMUNITY COLLEGE

Dear North Hennepin Graduate --

Congratulations on your graduation from North Hennepin Community College! We hope we were able to serve you well while you were at the College, and we wish you the best in your future.

Would you please take a few minutes to respond to the enclosed Placement Survey? We send the survey to all our previous year's graduates in order to learn what they are doing in their careers and education. We then summarize that information and use it to tell our current students what the job market is like and what our graduates are doing and have achieved.

The information you give us is vital to that task, and we appreciate your participation. The questionnaire will take only a few minutes to complete, and your responses will be kept anonymous and confidential.

Please mail us your completed Placement Survey in the enclosed postage-paid return envelope within 10 days. Thank you very much for your help and cooperation.

Yours truly,

Katherine Sloan
President

NORTH HENNEPIN COMMUNITY COLLEGE PLACEMENT SURVEY

Please respond to the questions listed below and mail the completed form back within 10 days.

1. **IF YOU ARE ATTENDING ANOTHER COLLEGE:**

   a. What is the name of the school? _____
